

This is a simple inexpensive method that I personally use.

*This document is copyright 2022 Michael A Cosma and may not be reproduced or given away. This is for training purposes only. No guarantee of money or income is implied. I am an affiliate of any programs listed in this document and will earn commissions if any purchase is made.*

Here is what you will get:

1. Automated Traffic Daily
2. Buyer Traffic
3. Lead Capture Page builder
4. Unlimited Leads and Lists Autoresponder
5. Get paid per lead
6. Programs you will be able to sell

This is a very simple system that only involves 3 main programs.  
I will now lay out the order to join these and describe them.

The first program is [Leads Leap](#). This will give you all the marketing tools including the LCP builder, list builder, and autoresponder that you are going to need. If you are already a member just skip this part, however, you must be an upgraded member to take full advantage of everything this program has to offer.

You can promote up to 10 programs inside Leads Leap if you are a pro member. This will be some of your hands free automated traffic.

[Leads Leap](#) contains a ton of help instructions. You will find them on each page of the site. I also have a short video tutorial if you need help. You can also ask for help in the facebook group.

First you should get your account (Pro If possible) - you can use free if you have to but you will lose out on the hands free advertising and you will not be able to set up an automated email series. There is no need to setup anything yet, for now, just get your account. Some of the next steps will be providing tutorials and giving you (done-for-you) pages that you can setup.

The next program is the heart of the program.

Next we will be using a program that will get you buyer traffic. But, that is not all.

When you purchase this buyer traffic you will then be offered the chance to be an affiliate for this program. This is the real GOLD in the program.

After you sign up for the program and submit your link or links (Note: if you don't have anything to promote just get an affiliate link from Leads Leap and use that) to get the buyer traffic. You will get an email from the program owner Jeff, inviting you to be an affiliate. You will want to do this. Click the link in that email and you will get to a training section where he will give you everything you need to build your list on Leads Leap. The pages are already done for you. All you do is follow the instructions and put them together.

[The Click Engine](#)

Once you get the Click Engine setup and go through the affiliate training you will have something you can advertise in your 10 spots at Leads Leap. This will be automated daily traffic. I will go over some additional traffic sources later in this document.

Make sure you did not skip the step of becoming an affiliate of Click Engine and go through the training. This is the main part of this system that ties everything together. If you skip it you will be lost.

## Let's Recap for a Minute

1. You should have joined Leads Leap
2. You joined The Click Engine
3. You completed the training to be a Click Engine Affiliate
4. You setup your email and capture pages in Leads Leap
5. You advertised these pages using your free ads in Leads Leap

So right now, if you followed these instructions, you have 2 or more automated advertising systems that are setup to bring you buyer and targeted traffic to your offers daily.

## Let's Expand Our Advertising

You can never have enough ads going out right?

And, you don't want to waste all day clicking on ads for this traffic or paying big bucks for paid ads. So is there another alternative? Yes there is. This one is called [EZ Clix Club](#)

small fee you will get even more hands free advertising using this product.

Tip: When you set this up make sure to go through the complete checklist that they have inside. By doing this you will get even more ads at no extra cost. Over 80% of people do not do this and this miss out on all the extra ads they could be getting.

You can also become an affiliate for EZ Clix Club now and put that in one of your 10 spots in Leads Leap. By doing that you can be earning recurring monthly commissions in all three of these programs. The low cost of The Click Engine and EZ Clix Club make them a pretty easy sell for most people.

## Another Recap

So by now we have setup **3 different systems** that are all working together if you followed my instructions and the instructions in The Click Engine. We can actually stop right here and just go get some additional advertising and promote what we have created here. But, we don't want to stop yet. Why not? Because, we like multiple income streams.

The next step which we can call step 4 includes 2 programs. I actually use both of them and so can you if you choose.

Let me explain the difference.

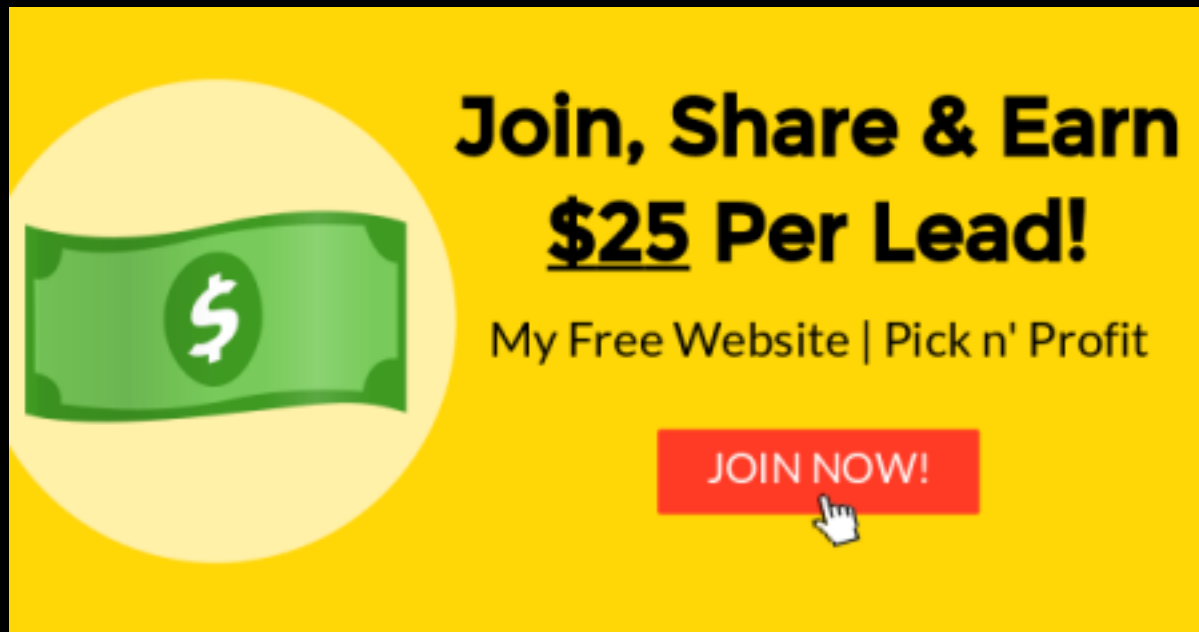

The first program will enable you to get paid per lead. You get a small amount just for them signing up. If they verify their email you make even more. It's pretty cheap to get into this program too.

The next program does not pay per lead but it does let your lead try the program out before they commit to purchasing it. The price is a little higher but so are the rewards. If you want to kick up your earnings this would be the one. Or, use them both like I do.

You could promote these in your 10 spots in Leads Leap and also in your email series for your list subscribers.

## The Programs

The first one is where you can get paid per lead. There is much more going on there. You can actually get a website designed for you if you need one. Once you get in and look around you will begin to see all they offer here. [Pick and Profit](#)

**Join, Share & Earn**  
**\$25 Per Lead!**  
My Free Website | Pick n' Profit

**JOIN NOW!**

The second program is called [Prosperity Marketing](#).

As I stated, the cost is a little higher but still very low compared to other programs like this. This will also help you build your downlines in several other programs and you can tie it in to an autoresponder. I spoke to the owner and he said it works fine with Leads Leap. I used Aweber on this one but you could connect whichever autoresponder you like.

Watch the short video for an explanation of the program and see if it is for you.

**PROSPERITY  
MARKETING SYSTEM**

**Build Your Own  
Income**

**Click to Start Building!**

So that completes the program. Easy right?

You can go a million ways from here. Perhaps you already have some other programs you are promoting. You could add those into any of these systems. When you get into The Prosperity

Marketing System you will find another great advertising program that you can post to daily. This will be listed as my main program in there. They have an adboard that seems very responsive. There are many people in there daily so it would be a good idea to post in there every day if you have time.

I'm going to give you a couple of extra places that are good to advertise at as promised.

One of these is a traffic exchange. This is a site where you click on some links and then get credits to have your own links shown. There are many of these available. If I was just going to recommend one it would be [Traffic Ad Bar](#).

The next site for additional advertising will be a mailer/safelist. This is a big one. They also have good deals on upgrades. If you see a deal for a GOLD upgrade I would jump at it. That is the one I took. You can also use the list for free. You can just mail even more if you get the upgrade and your ads go BOLD on the front page.

This Monster of a List is Called [Herculist](#).

You will find some more advertising programs that are good inside of Prosperity Marketing System. Between those and these two you should have plenty of extra advertising.

Make sure you setup a separate Gmail account. You can use that extra account for Traffic Ad Bar, Herculist and any other advertising program you join. This way your main email box will not be cluttered up.

I may do a second PDF Document on Social Media specifically Facebook.
